# Beefmaster Breeders United

## Voluntary Classification Guidelines:

Cattle are visually inspected by a BBU field representative for desirable traits. Each animal is classified according to BBU's Standards of Excellence.

Any bull or female in the "U" category will be so designated on the BBU Certificate of Breeding along with the date and initials of the BBU field representative. To be presented for a "U" classification, males and females must be a minimum of 8 months with no upper age limit. Classification of Certified Beefmaster cattle is \$5.00 per head or \$350.00 per stop, whichever is greater.

Any bull or female in the "X" category will be removed from the registry by BBU's office and so noted by correspondence to the member. BBU will not charge the member a classification fee for an "X" animal.

Bulls must have a yearling scrotal measurement (taken between 320-410 days of age) of at least 30 cm to meet the "U" qualification. A measurement of 34 cm is the objective.

All cattle presented for classification must have permanent identification and must be certified or an application for certification must be presented to the field representative.

To receive a number score all animals must have a "U" classification.

All animals (male and female) aged 13 months and up may be presented for "U" classification and number scores for conformation and underline, with the stipulation that if the animal is seen later in a BBU Approved or Sanctioned Sale it is subject to reclassification by the BBU field service representative at the sale (at no charge).

## Scrotal Circumference Scores:

SCORE	AGE		
	15-20 Mo. Old	21-30 Mo. Old	Over 30 Mo. Old
Very Good	More than 37 cm.	More than 39 cm.	More than 40 cm.
Good	31-37 cm.	32-39 cm.	33-40 cm.
Poor	Less than 31 cm.	Less than 32 cm.	Less than 33 cm.

The Impossible is  
Now M-Possible.

### **New M40 Series**

Now you can get all this in a utility ag tractor: A powerful, direct-injection engine that redefines fuel economy. A comfortable Ultra Grand Cab. And a sleek new design. Take one for a test drive and discover all the possibilities.

**TERMS AND CONDITIONS OF SALE**  
**ADOPTED BY BEEFMASTER BREEDERS UNITED**  
**FOR BBU APPROVED SALES**  
*Effective September 10, 2010*

THE FOLLOWING TERMS ARE APPLICABLE TO ALL TRANSACTIONS IN BBU APPROVED SALES:

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve.
2. **BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
3. **TERMS:** Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.
4. **PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
5. **CERTIFICATE OF BREEDING AND/OR TRANSFERS:** All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
6. **HEALTH:** All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
7. **ANNOUNCEMENTS:** Any changes in information of any kind will be announced from the auction box and such announcements shall take precedence.
8. **BREEDING GUARANTEES:**
  - a) **FEMALES: OPEN AND/OR EXPOSED FEMALES:** Females younger than twenty-four (24) months of age can be sold as open.  
Open females are so guaranteed. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.
  - b) **SAFE IN CALF FEMALES** have been examined by a competent veterinarian and are so guaranteed.
  - c) **BULLS:** Bulls eighteen (18) months or older are guaranteed to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. The results of the Breeding Soundness Evaluation (BSE) must be reported on a fully completed official form and attached to the health papers required for the sale.
9. **DISCLOSURE OF PRIOR PROCEDURES:** If known to the seller, there must be a disclosure in the current sale catalog or from the box of any circumcision or other surgical alteration of any underline of any male or female and of any single egg or super-ovulation flush of any female sold in a BBU Approved Sale.
10. **INHERITED DEFORMITIES GUARANTEE:** All bred females are guaranteed not to produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.
11. **REPRESENTATIONS AND GUARANTEES:** All representations and guarantees, whether set forth in sale catalogs, these Terms and Conditions of Sale or otherwise, are solely those of seller and are not those of BBU. Except for the assurances set forth in the Approved Sales Agreement that an animal does not exhibit a genetic defect and that its registry information is consistent with the information in BBU's records, BBU makes no representations, warranties, guaranties or assurances whatsoever.
12. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale shall constitute a contract between buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction. Neither BBU, the sale manager, nor any other person connected with the management of the sales assumes any liability, legal or otherwise, for any subsequent resale of an animal.
13. **REMEDIES:**
  - a) **OPEN AND/OR EXPOSED FEMALES** are guaranteed to be breeders by twenty-four (24) months of age except in cases of animals purchased and then fitted for show or administered any super ovulation drug. In cases of animals fitted for show or administered any super ovulation drug after purchase, the breeding guarantees, if any, shall be such as agreed upon between buyer and seller. All claims for a refund must be made in writing to the seller within six (6) months after the animal reaches twenty-four (24) months of age. Open females are so guaranteed. If within sixty (60) days after the sale date, a female sold as "open" proves to be with calf, the buyer may return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, and receive refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within sixty (60) days from the date of sale and to make the election as hereinabove provided shall relieve and absolve the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.
  - b) **SAFE IN CALF FEMALES** are guaranteed to have been examined by a licensed veterinarian. If within thirty (30) days after sale date, a female sold as "safe in calf" proves not to be in calf, the buyer may immediately request that the female receive service from the bull previously used, if available, or return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within thirty (30) days from the sale date and to make the election as hereinabove provided shall relieve and absolve the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.
  - c) **FLUSHES AND TIME REQUIREMENTS:** A flush consists of all viable embryos, transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. The maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non-delivery or only partial delivery by the specified time by the seller will result in a pro-rata refund of all monies paid by the buyer for such flush or pregnancies not delivered.
  - d) **PREGNANCY AND/OR PREGNANT RECIPIENT COW:** Pregnancy and/or pregnant recipient cow is a cow of any breed that is carrying a pregnancy (guaranteed to have been examined by a licensed veterinarian as safe in calf) as the result of a flush as so stated on the certification of embryo transplant form. Such pregnancy and/or pregnant recipient cow is guaranteed to be carrying the embryo pregnancy so stated and if found not safe in calf by a licensed veterinarian within thirty (30) days of delivery of the recipient cow to the buyer, the buyer will have the same remedies as set forth in clause b) for the safe in calf females. The amount bid by the buyer for the individual pregnancy and/or pregnant recipient cow offered at a sale will be inclusive of the recipient cow. A pregnancy and/or pregnant recipient cow should be available at the sale site; however, if not available it must be delivered to the buyer, at the seller's expense, within thirty (30) days of the sale with the necessary health papers sufficient for delivery to the buyer.
  - e) **CLONES:** Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell in BBU Voluntary Approved Sales. Genetically modified animals shall not be eligible for registration and cannot sell in BBU Approved Sales. Cloned animals shall be guaranteed by the seller to be breeders under the same terms of the agreement for females and bulls. Any additional guarantees with respect to clones shall be by separate agreement between buyer and seller.
  - f) **BULLS:** If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a Breeding Soundness Evaluation ("BSE") certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU Breeding Soundness Evaluation form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. A listing of industry standards for Scrotal Circumferences for bulls at various ages will be printed in the sale catalog. Satellites, Marketing Groups, or individuals may specify additional guarantees.

**CONSIGNOR: Emmons Ranch, Steve & Cindy Emmons - Fairfield, TX**

Champions produce champions and that is what he has already accomplished early in his career. EMS Smooth Cavalier is the 2009 National Champion Bull and he has already sired the 2011 Miss Beefmaster America. He produced the 2011 Grand Champion Female at the East Texas Fair and State Fair of Louisiana. He also sired the Grand Champion and Reserve Champion at the BBU Convention in Branson, Missouri. He was the 2011 Champion Get Of Sire of the Beefmaster Promotion Group and has produced numerous other winners. The meat and muscle he is passing on is extraordinary.

# LOT 15 ----- Three-In-One

CONSIGNOR: Don & Roberta Smith - Hart, TX

BRAND: 831 BREEDER: Don Smith

BBU NO.: C1014804 BIRTH: 3-10-08

COLOR: Black

We've been raising Beefmasters for over 40 years. In 1982 I bought the highest selling bull from Joe Hendrix for \$10,000 at the Three Rivers sale. This was DS 127. In 1984 we bought 2 heifers from Leo Jasik (LJ Bar) that were out of Crimson Warrior. I used these 2 cows as my donor cows. This started my upgraded foundation. In 2008 one of my best donor cows gave me 4 heifers and 4 bulls. The sire was Bandito. He was the high selling bull in Charlie Jones sale in Tennessee. I consider this cow's dam the best cow that I have ever raised. 831 is the pick of my herd. The calf at her side is out of Smooth Cavalier. My health problems have caused me to sell her. But I am not through yet!!! She is A.I. bred to Johnny Cash, C 930530.

**CONSIGNOR: Kelly A. Cupp - Wolfe City, TX**

This is the first time the C-C Ranch has offered cattle for public sale, we have worked very hard with bloodlines and breeding to get the look and the build that will represent our ranch. We started the herd with the help and guidance of the late Jerry Orr, and have several fine animals to show for it. We have some of the top bloodlines in the breed on our ranch and will continue to build upon what we have started.

The bull, C-C 1311 was bred at the request of the late Jerry Orr, I purchased the dam from him as a heifer and it turned out that she had the bloodline he wanted to cross with 9510, the bull's sire. The young bull has turned out to have the length and the thickness that he assured me he would have as well as a good, clean underline.

Dovey is sired by Ben Mitchell's 2007 Grand Champion Bull of the NETBBA Henderson sale. She exhibits superior conformation and should fit in the top 10% of anyone's herd. She is bred to Bayou Rouge, Harold Hoge's Reserve Grand Champion bull that we purchased in 2010. Bayou Rouge was the high selling bull at that sale. He is polled and has sired nothing but polled calves. Stop by and take a look at this complete package!

Adj. Trait:	65		562							

Hey! Look me over! Synergy top and bottom and Cavalier top and bottom! This pedigree shows the evolution of genetics in our dams and herd sires. We have had extremely good results in the Cavalier-Synergy line breedings and the heifers breed and produce by 24 months. She has an added attraction with her fancy color!

	BW:	WW:	YW:	Scrotal:	REA:	%IMF:	Rib Fat:	Rump Fat:	
Ratio:									
Contmp.:									
Adj. Trait:									

Darco is 20-months-old, red/mottle underline and polled with small scurs, with a very calm disposition and Buster, Frenzel and Lasater genetics. On the sire side, L Bar 5502 appears twice, and on the dam side is Lasater 6537 (known for outstanding daughters), and Old Yeller is on both sides. Darco comes from one of our best lines of females, five generations, with each cow having problem-free feet, legs, and udders, not one exception. Darco will be fine for heifers, not a single Buster 7116 calf required assistance at birth due to size, and both grand sires have negative birth weight EPDs.

# LOT 37 ----- Bull

Adj. Trait:									

This bull is polled and has a lot of muscle and thickness. His sire is a Black Magic son out of Painted Tiger daughter. I believe he is the best bull I ever owned. His dam and granddam both have a U 1/2 conformation. His dam has produced 4 good bulls, one was the Reserve Champion in the 2008 bull sale. I have three of her daughters and one full brother to this bull in my herd.

# LOT 38 ----- Pair

CONSIGNOR: Ben Mitchell - Palestine, TX

BRAND: 8/8

BREEDER: Elmwood

BBU NO.: C974258

BIRTH: 3-4-8

COLOR: Black/MUL

This young cow is just coming in to her prime years. She is thick, deep bodied and has a good udder and excellent conformation. Her sire was a Black Phantom grandson that I raised. She has a bull calf by a Black Magic son and out of a Painted Tiger daughter, he has sired a lot of good bulls.

Here is a bull with outstanding EPDs, and low birth weight! Then look at the ribeye, 14.34 and the IMF is 3.31! This is what you call performance. Then look at the genetics. Spartacus and L2 breeding with Gameday. He has been parent verified and ready to go to work for you. By the way, his papers say red blaze face, but he is chocolate and no blaze face! Someone goofed and it is probably me.

CF 440/1 is a solid, dark red herd bull prospect by Logan and out of the great donor cow, Harmony. This bull has all the phenotypic qualities desired, from his clean underline to strong muscling and super correct conformation. Additionally he performed well also with an average daily gain of 3.36 on his winter pasture test and 4.30 on summer forage test.

This well built herd bull prospect continues to prove why Logan is leading the Beefmaster industry in bull production. CF 552/1 is out of a pacesetter dam that is still in production at Collier Farms as a 9 year old cow. She has produced big, high selling cattle time and time again. This bull had impressive gain test data with a 2.72 ADG on his winter pasture test and a 3.59 ADG on his summer forage test.
