Beefmaster Breeders United

Voluntary Classification Guidelines:

Cattle are visually inspected by a BBU field representative for desirable traits. Each animal is classified according to BBU's Standards of Excellence.

Any bull or female in the "U" category will be so designated on the BBU Certificate of Breeding along with the date and initials of the BBU field representative. To be presented for a "U" classification, males and females must be a minimum of 8 months with no upper age limit. Classification of Certified Beefmaster cattle is \$5.00 per head or \$350.00 per stop, whichever is greater.

Any bull or female in the "X" category will be removed from the registry by BBU's office and so noted by correspondence to the member. BBU will not charge the member a classification fee for an "X" animal.

Bulls must have a yearling scrotal measurement (taken between 320-410 days of age) of at least 30 cm to meet the "U" qualification. A measurement of 34 cm is the objective.

All cattle presented for classification must have permanent identification and must be certified or an application for certification must be presented to the field representative.

To receive a number score all animals must have a "U" classification.

All animals (male and female) aged 13 months and up may be presented for "U" classification and number scores for conformation and underline, with the stipulation that if the animal is seen later in a BBU Approved or Sanctioned Sale it is subject to reclassification by the BBU field service representative at the sale (at no charge).

Scrotal Circumference Scores:

SCORE	AGE		
	15-20 Mo. Old	21-30 Mo. Old	Over 30 Mo. Old
Very Good	More than 37 cm.	More than 39 cm.	More than 40 cm.
Good	31-37 cm.	32-39 cm.	33-40 cm.
Poor	Less than 31 cm.	Less than 32 cm.	Less than 33 cm.

IMPROVING RESULTS

Year, After Year, After Year

Beefmaster Breeders United Approved Sale Agreement

(For Consignors, Sale Managers and Consultants)

In consideration of the permission granted by Beefmaster Breeders United ("BBU") for the undersigned to conduct a BBU Approved Sale and the mutual agreements set forth below, I hereby agree to the following terms and conditions:

1. All cattle to be sold shall be represented by the seller as properly identified with permanent identification number. All identification numbers, branded or tattooed on an animal, and the description must match identically the identification numbers, holding brands and description listed on the Certificate of Breeding.
2. At the time of the sale, all cattle exhibiting any genetic defect that, in the opinion of the designated BBU official, would be a detriment to the breed, and all cattle that, in the opinion of the designated BBU official, would classify "X" under the BBU Voluntary Classification Program will be removed from the sale offering.
3. BBU's fees for services rendered in connection with an Approved Sale are available upon request from the BBU office.
4. The designated BBU official responsible for implementing the above regulations will be at the sale site in ample time to inspect the cattle and accompanying records prior to the commencement of the sale and I agree to provide such official with appropriate access and accommodations required to assure full compliance with the terms of this Agreement.
5. All cattle sold, other than First and Second Cross calves under fourteen (14) months of age and the embryo recipients, must have BBU Certificates of Breeding. All First and Second Cross calves under fourteen (14) months of age must be accompanied by a properly completed and executed Application for Certificate of Breeding. The sale management or seller must present all Certificates of Breeding (or applications when applicable) to the BBU office ten (10) business days prior to sale date. Substitute animals will be accepted provided the Certificates of Breeding (or applications) are in compliance with all applicable requirements upon arrival at the sale site.
6. All semen and frozen embryos sold at a BBU Approved Sale must have a completed BBU AI Certificate Form or Embryo Bill of Sale provided at the time of the sale. The BBU AI Certificate Form or Embryo Bill of Sale shall include, if applicable, the Blood Typing Case # and DNA Genotype Case # of the bull whose semen is sold, or the sire and dam of the embryos being sold. All A1 Sires and Donor Dams must have a DNA Profile on file (or Blood Typing, if applicable) at BBU prior to the approved sale date. BBU approved sale catalogs must include the blood type case number and DNA genotype case number of all animals selling that have been typed; and include the blood type case number and DNA genotype case number of the sire and dam (if typed) of all animals selling. The PV designation for "Parent Verified" must also be included in the BBU Approved Sale catalog on each animal to which it is applicable.
7. BBU Certificate of Breeding number of each service sire of a bred female must be indicated in the sale catalog.
8. If an animal is classified, such classification must be reflected in the catalog, as provided for below or on the pen card if applicable or announced from the box. All existing available official BBU performance information will be included in the following block, (only that portion of the block must be printed where official BBU information exists) for the display of official BBU classification and performance information. The sample block below may be used or other formats may be used but the information must be official BBU data as listed on the registration certificate.

1. In making this agreement, I agree to indemnify and hold harmless BBU, its officers, directors, employees, agents, and authorized representatives from any liabilities which may arise in connection with a BBU Approved Sale. I acknowledge that I have read and understood all of the terms of this Agreement and the currently applicable Terms and Conditions of BBU Approved Sales.

FAILURE BY A MEMBER TO COMPLY WITH THIS SIGNED AGREEMENT WILL BE AUTOMATIC CAUSE FOR APPEARING BEFORE THE BBU ETHICS AND RULES COMMITTEE TO SHOW CAUSE WHY HE/SHE SHOULD BE PERMITTED TO RETAIN HIS/HER MEMBERSHIP IN BBU.

The provisions of this Agreement only apply to a sale that has qualified to the satisfaction of BBU as a "BBU Approved Sale." Such qualification shall be manifested by the certifying statement of an authorized officer, director or staff person of BBU expressed from the sale box immediately prior to the sale. All BBU Satellite Sales shall be conducted in conformance with, and subject to, the terms and conditions of this Approved Sales Agreement.

By signing this agreement, I agree to abide and be bound by this Agreement and all currently applicable Terms and Conditions of BBU Approved Sales.

TERMS AND CONDITIONS OF SALE ADOPTED BY BEEFMASTER BREEDERS UNITED FOR BBU APPROVED SALES

Effective September 10, 2010

THE FOLLOWING TERMS ARE APPLICABLE TO ALL TRANSACTIONS IN BBU APPROVED SALES:

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve.
2. **BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
3. **TERMS:** Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.
4. **PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
5. **CERTIFICATE OF BREEDING AND/OR TRANSFERS:** All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
6. **HEALTH:** All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
7. **ANNOUNCEMENTS:** Any changes in information of any kind will be announced from the auction box and such announcements shall take precedence.
8. **BREEDING GUARANTEES:**
 - a) **FEMALES: OPEN AND/OR EXPOSED FEMALES:** Females younger than twenty-four (24) months of age can be sold as open. Open females are so guaranteed. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.
 - b) **SAFE IN CALF FEMALES** have been examined by a competent veterinarian and are so guaranteed.
 - c) **BULLS:** Bulls eighteen (18) months or older are guaranteed to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. The results of the Breeding Soundness Evaluation (BSE) must be reported on a fully completed official form and attached to the health papers required for the sale.
9. **DISCLOSURE OF PRIOR PROCEDURES:** If known to the seller, there must be a disclosure in the current sale catalog or from the box of any circumcision or other surgical alteration of any underline of any male or female and of any single egg or super-ovulation flush of any female sold in a BBU Approved Sale.
10. **INHERITED DEFORMITIES GUARANTEE:** All bred females are guaranteed not to produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.
11. **REPRESENTATIONS AND GUARANTEES:** All representations and guarantees, whether set forth in sale catalogs, these Terms and Conditions of Sale or otherwise, are solely those of seller and are not those of BBU. Except for the assurances set forth in the Approved Sales Agreement that an animal does not exhibit a genetic defect and that its registry information is consistent with the information in BBU's records, BBU makes no representations, warranties, guaranties or assurances whatsoever.
12. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale shall constitute a contract between buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction. Neither BBU, the sale manager, nor any other person connected with the management of the sales assumes any liability, legal or otherwise, for any subsequent resale of an animal.
13. **REMEDIES:**
 - a) **OPEN AND/OR EXPOSED FEMALES** are guaranteed to be breeders by twenty-four (24) months of age except in cases of animals purchased and then fitted for show or administered any super ovulation drug. In cases of animals fitted for show or administered any super ovulation drug after purchase, the breeding guarantees, if any, shall be such as agreed upon between buyer and seller. All claims for a refund must be made in writing to the seller within six (6) months after the animal reaches twenty-four (24) months of age. Open females are so guaranteed. If within sixty (60) days after the sale date, a female sold as "open" proves to be with calf, the buyer may return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, and receive refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within sixty (60) days from the date of sale and to make the election as hereinabove provided shall relieve and absolve the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.
 - b) **SAFE IN CALF FEMALES** are guaranteed to have been examined by a licensed veterinarian. If within thirty (30) days after sale date, a female sold as "safe in calf" proves not to be in calf, the buyer may immediately request that the female receive service from the bull previously used, if available, or return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within thirty (30) days from the sale date and to make the election as hereinabove provided shall relieve and absolve to the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.
 - c) **FLUSHES AND TIME REQUIREMENTS:** A flush consists of all viable embryos, transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. The maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non-delivery or only partial delivery by the specified time by the seller will result in a pro-rata refund of all monies paid by the buyer for such flush or pregnancies not delivered.
 - d) **PREGNANCY AND/OR PREGNANT COW:** Pregnancy and/or pregnant recipient cow is a cow of any breed that is carrying a pregnancy (guaranteed to have been examined by a licensed veterinarian as safe in calf) as the result of a flush as so stated on the certification of embryo transplant form. Such pregnancy and/or pregnant recipient cow is guaranteed to be carrying the embryo pregnancy so stated and if found not safe in calf by a licensed veterinarian within thirty (30) days of delivery of the recipient cow to the buyer, the buyer will have the same remedies as set forth in clause b) for the safe in calf females. The amount bid by the buyer for the individual pregnancy and/or pregnant recipient cow offered at a sale will be inclusive of the recipient cow. A pregnancy and/or pregnant recipient cow should be available at the sale site; however, if not available it must be delivered to the buyer, at the seller's expense, within thirty (30) days of the sale with the necessary health papers sufficient for delivery to the buyer.
 - e) **CLONES:** Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell in BBU Voluntary Approved Sales. Genetically modified animals shall not be eligible for registration and cannot sell in BBU Approved Sales. Cloned animals shall be guaranteed by the seller to be breeders under the same terms of the agreement for females and bulls. Any additional guarantees with respect to clones shall be by separate agreement between buyer and seller.
 - f) **BULLS:** If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a Breeding Soundness Evaluation ("BSE") certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU Breeding Soundness Evaluation form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. A listing of industry standards for Scrotal Circumferences for bulls at various ages will be printed in the sale catalog. Satellites, Marketing Groups, or individuals may specify additional guarantees.

CC Pride is a long, thick bull that passed his traits on to his offspring. His first calf crop was outstanding. We have retained all of his heifers and several herd bull prospects. His dam, Chapman 109/5 was a LOBBA champion female. Study this bull's pedigree and EPD's. Do not miss this opportunity to add this kind of bull to your breeding program. Lifetime Member. Whole Herd Reporting.

LOT 10 ----- Exposed Pair

CONSIGNOR: Tony & Karen Psencik - San Antonio, TX

BRAND: 9699 BREEDER: Joeris

Look at these genetics! Robert E. Lee, Oasis, and Bullet Proof. Hardly seems real, but here it is! A donor prospect all the way. Red, feminine, and built right. On top of that she has a coupon inside her out of one of our herd sires, GameDay. The numbers on this baby should be out of the roof! Safe in calf to GameDay, C 961101.

18-month-old Cavalier granddaughter with one of our show heifer dams on the bottom side and goes back to Wallstreet. Lifetime Member. CalfhooD vaccinated.

LOT 36 ----- Pair

CONSIGNOR: Gaylon Oehlke - Kenedy, TX

BRAND: 717/9

BREEDER: OK Ranch

BBU NO.: C991537

BIRTH: 9-12-09

COLOR: Red

Very nice U 1/1 classified cow with her first calf at her side. She is out of Texas Titan, U 1/3 (Titan x Sugarmomma) and a U 1/2 Iron Legend daughter that goes back to Expo. She sells with a bull calf at side that was born on 11-18-11 out of Hidalgo, U 1/2 (Captain Lucey x Santa Maria). Good EPD's, good pedigree, and solid package!
