Any cattle old enough to require Brucellosis and TB Test must meet those requirements. Texas is now a T.B. Free State. Semen test and scrotal circumference on bulls and palpation on females must be shown on the health certificate. Testing must be done within 30 days of sale date. Health certificates must meet the standards of both state and federal requirements. Bulls 18 months of age and older must pass a Breeding Soundness Evaluation (BSE). **The BSE can be filled out by a licensed Vet on the enclosed form provided by BBU or on the form issued by the Society of Theriogenology.** All bulls consigned must meet “Trick” requirements.
