Terms and Conditions

BIDDING: Each animal will be sold to the highest bidder without reserve.

BIDDING DISPUTE: The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

CASH SALE: All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, Section 10 of the BBU Bylaws.

BUYER'S RISK AT THE TIME OF SALE: The risk of loss and injury of each animal passes to the buyer as soon as it is sold.

CERTIFICATES OF REGISTRATION: A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within **45 days** following the later of either the date of sale or upon the receipt of full payment.

HEALTH GUARANTEES: Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

ANNOUNCEMENTS: If there is any inconsistency in information in terms of the sales materials (e.g. sale catalog, supplemental sheets, sale day announcements, 1) sale day announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

IDENTIFICATION RESPONSIBILITIES: 1) Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

ARTIFICIAL INSEMINATION (AI) CERTIFICATES AND EMBRYO TRANSFER (ET) BILLS OF SALE: AI certificates and ET bills of sale will be the responsibility of the seller.

CONFORMANCE WITH REGISTRATION GUARANTEES: 1) The seller guarantees that all sold animals are registered in accordance with the rules of BBU and 2) The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of BBU.

OFFICIAL BBU INFORMATION: All existing available official BBU information, including calf source, service sire and/or potential service sires (registration numbers) and performance data must be included in the final sales catalog.

PEDIGREE, PERFORMANCE AND GENETIC INFORMATION GUARANTEES: The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sales catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date. The absence in any sales materials of a specific designation on the pedigree of an animal does not establish that the animal in question is not a carrier of such genetic defect.

BREEDING GUARANTEES:

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to gross negligence by or willful misconduct on the part of the buyer.

2) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. Results of the BSE must be reported on a fully completed official form and attached to the health papers required for the sale.

3) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

**** Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.**

DISCLOSURE OR RETENTION OF GENETIC MATERIALS: If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be in writing to the seller within 180 days of the sale of the animal in question.

5) If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller within 180 days of the birth of the calf.

6) If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. Seller is responsible for all transportation expenses.

7) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

8) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.

9) If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.

10) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

GENETIC DEFECTS AND FACTORS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL:

1) In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by BBU) as a carrier of any genetic defect or genetic factor recognized by BBU.

2) The seller guarantees that a bred female will not produce a calf with an inherited defect or deformity occurring in Bovine for a period of nine months following date of sale.

MISCELLANEOUS:

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Suggested Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) **UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.**

This brindle bull is a flushmate to out newest donor, SM Rachel's Valentine, who we successfully campaigned throughout her show career. This bull's granddam is the WR Roxie cow that has raised numerous champions. His sire is our leading herd sire, CJ's Dream On who has helped take our program to the next level! Not only does this bull have the look for the showing, but also packs an impressive set of EPDs. He ranks in the top 15-20% in the following categories: WW, YW, SC, MCE, MWWT, \$T and \$M. This bull is young but buy with confidence that he will perform.

This scurred brindle bull is one that you have to appreciate for his muscle definition. This bull balances up very well; he sounds on his feet and legs, soft bellied, big topped and good hipped. I believe this bull can work in a variety of situations and do a good job for his new owner.

This black heifer is a flushmate to 7928 so also read his footnote (lot 1). This heifer is a bit different than the heifer we successfully campaigned, as she is more refined in her bone work but with that being said she is also more refined through her head, neck and shoulders. This female reads truer out of her hip and has the good running gear for years to come. This female has all the flash and eye appeal needed and has performance to boot! she ranks in the top 15-20% in the following categories: WW, YW, SC, MCE..

A very nice black, polled heifer with tremendous breeding. She is beautiful in her makeup and bred to our new herd sire we purchased from Geary McKenzie, Lights Out, C 1082289. He is a homozygous black and polled bull that we are using extensively in our herd. Get in front with one of his first calves.

This is a polled female, former show heifer that constantly outproduces herself. She calved while on the show string. Fertility out of this world. Look at this CHRK Sledgehammer polled bull calf at her side. She is exposed to SM 7402 Dream Ryder, C 1077067, who we bought on the side of the great WR Roxie granddaughter from Sheldon McManus.

Five embryos by Adrenaline. Another good donor that has done a good job for us. Extremely fertile! Ready to have another calf. Stored at Trans Ova Genetics, 866-924-4586.

EPD Descriptions

Birth Weight - expressed in pounds, a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight - expressed in pounds, a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires

Yearling Weight - expressed in pounds, a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Maternal Milk - a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability. This listing is also referred to as "Milk".

Total Maternal - a prediction of the total contribution of a sire's daughter to calf performance. This can be obtained by adding one-half of the sire's WW EPD to his Milk EPD.

Scrotal Circumference - expressed in centimeters, a predictor of the difference in transmitting ability for scrotal size compared to that of other sires. Note: Females are able to have Scrotal Circumference EPDs, just as bulls have Maternal Trait EPDs. Although females cannot express this trait directly, they still possess the genes that influence scrotal circumference.

Rib Fat - expressed in inches, a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Ribeye Area - expressed in square inches, a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Intramuscular Fat - expressed as a percentage (%), a predictor of the difference of a sire's progeny for percent intramuscular fat in the ribeye muscle compared to progeny of other sires.

Terminal Index (\$T) - expressed in dollars, \$T or Terminal Index is designed for the retained ownership cattleman, feeder cattle buyer or packer who is most interested in fast growing, high performing steers, who will be sold to the packer on grids based on carcass merit. \$T is a combination of WW, YW, REA and IMF EPDs. These traits accurately tell us about the growth and carcass merit of that animal. When these are combined with historical Choice/Select and Yield Grade pricing components, they give a very accurate description of the future value of a bull's steer progeny. While the individual EPDs describe certain traits very well, the index does a better job of selecting for all of these traits at the same time.

Maternal Index (\$M) - expressed in dollars, \$M or Maternal Index is designed to help ranchers select animals that fit into a maternal criteria. \$M accounts for growth, milk production and fertility and considers expected cow maintenance issues to arrive at an economic figure that is meaningful to the cowman. The EPDs considered and factored into \$M are WW, YW, Milk and SC. These are balanced against cow maintenance costs as a result of mature cow size and milk production.

APPLICATION FOR MEMBERSHIP
(NAME FRANCHISE & HOLDING BRAND CONTRACT)

Application is hereby made for membership in Beefmaster Breeders United (BBU) in the name of

Registered Account Name/Membership Name: _____

Mandatory Field. (NOTE: Membership Name is permanent; change is limited/restricted.) This is the name that determines your placement in the membership directory and this is used to sort memberships in alphabetical order by last name. This name prints on certificates.

This application is hereby made for a (Check One): **Lifetime** **Active** **Associate** (do not currently own cattle)

Junior (under the age of 21 years as of January 1)

(Check one) This is a **Corporation** **Partnership** **Firm or Individual**

I (We) hereby make application for the **Prefix Name:** _____ ***Mandatory Field*** and will apply this Prefix Name, if accepted, to BEEFMASTER cattle of which I am (we are) the breeder and/or first owner. I (We) agree to notify BBU annually, with payment of dues, as to whether I am (we are) still breeding BEEFMASTERS and using this Prefix Name. If I (we) do not so notify BBU, I (we) authorize BBU to discontinue my (our) use of this Prefix Name. (does not apply to Lifetime)

A **Unique** name in the system. Many members use their ranch name (A C FARMS). You may choose to use your membership name. Both the Membership Name and Prefix Name will print on the certificates. This can be up to 25 characters long, including spaces and Prefix Name is permanent; change is limited/restricted.

I (We) will use the following Holding Brand: _____ (please sketch)

I (We) hereby authorize the following **Designated Signers:** _____ ***Mandatory Field*** to exercise all rights and privileges of this membership and, no person other than that named may act for this membership until the BBU Executive Vice President has been notified in writing that another name is being substituted for the above and receipt of notification has been acknowledged in writing. *You (member signing up) will be the primary signer. We recommend at least one other person to be listed. In the case you are not able to conduct business, the secondary signer would be able to. You may list a spouse, children, ranch manager, etc. Any Junior applicant **MUST** have parents/legal guardians listed as their designated signers.*

I (We) hereby authorize the following **Secondary Signers:** _____
These secondary signers cannot change membership, but can process work.

I (We), if elected to membership, agree to be governed by the By-Laws, Rules and Regulations of Beefmaster Breeders United, as amended from time to time, and hereby acknowledge receipt of the current By-Laws, Rules and Regulations.

I (We) hereby affirm the above and foregoing is true and correct to the best of my (our) knowledge and belief.

*Signature and Title of Applicant(s) ***Mandatory Field***
